HOW TO PLAY

How to Play

The Money Wheel is another effortless game to play and reminds you of the chocolate wheel at your local fete.

The Money Wheel is simple, exciting and fun to play and SKYCITY Darwin is excited to have this great game apart of it's premier casino. The Money Wheel is divided into 52 equal segments, each of which have a dollar value or "symbol". The odds paid on each section are clearly marked on the wheel and on the table from even money right up to 47 to 1.

Bets and Odds

\$1	Pays 1 to 1
\$3	Pays 3 to 1
\$5	Pays 5 to 1
\$11	Pays 11 to 1
\$23	Pays 23 to 1
SKYCITY	Pays 47 to 1
Darwin	Pays 47 to 1

How it Works

1. Place a bet on the "symbol" or "symbols" you think will win. You can bet on as many "symbols" as you want.
2. The Dealer will say no more bets and spin the wheel.
3. When the wheel stops spinning and lands on a "symbol" marked by an indicator we have a winner. Everyone that has a bet on that "symbol" wins and gets paid at the odds marked on the wheel and the table.

If the indicator stops on a peg instead of a "symbol", the previous symbol will be the winner; not the oncoming symbol.

The Golden Rule

As with all table games, if you are not sure about a bet or the rules of the game, just ask one of our friendly table games staff for assistance.

They will be happy to explain anything about the game that you may not understand.
