

THE TERRITORY'S BIGGEST GAME

GAME GUIDE

WHAT'S YOUR NUMBER?

NT Keno is an easy numbers game, similar to the lottery. You can play for just \$1 and have the chance to win a minimum of \$1 Million when you play the 10 Spot Jackpot.

NT Keno offers a range of bets and prizes; you can choose your own lucky numbers or try your luck with a Quickpick.

The object of the game of Keno is to select up to 40 numbers, from 1 to 80 and to match (or in some cases not to match) those against the 20 numbers that are randomly drawn for each game.

STANDARD GAMES

Choose your own 1, 2, 3, 4, 5, 15, 20 or 40 Spots to play. The payout amounts are increased proportionately to the bet amount

JACKPOT GAMES

NT Keno Jackpots (6, 7, 8, 9 and 10 Spots) have a minimum value and continue to grow until they are won. The 10 Spot Jackpot has a minimum of \$1 million prize money

QUICKPICK JACKPOT

Choose how many combinations and how many games on which Jackpot. The numbers will be randomly generated and you will have more chances on each game on the same ticket

QUICKPICK

If you cannot decide on 'What's your Number' there are several Quickpick options where the system will randomly pick the numbers for you

SUPERPLAY

Superplay are pre-formatted "Way" bet, which allow you to play several combinations on the one ticket and gives you the chance to play more than one Spot and/or Jackpot per game. With all Superplay games the system will randomly pick the numbers for you

WAY BET

Similar to Superplay, but you will need to choose your own numbers and ways, rather than having system generated numbers. Ways bet allows you to play more than one bet on a ticket increasing your chances to win

HEADS OR TAILS

Choose if the most drawn numbers will be in the top half of the grid (Heads), the bottom half of the screen (Tails) or equal amounts in both (Evens)

NT KENO PRIZE GUIDE

NT Keno offers a number of Jackpots and standard games, and with 10 Spot there is a guaranteed prize of \$1 Million or more for a minimum stake of \$1

When selecting 10, 15, 20 or 40 numbers, if your numbers do not get drawn you can still win

- You can win without matching any numbers on 10, 15, 20 and 40 Spots selected.
- Spots are selected by the number of numbers you play
- Jackpots are when you select 6, 7, 8, 9 or 10 numbers
- You must select the correct amount of numbers for each Jackpot, therefore if you play 8 Spot, select 8 numbers

QUICKPICK JACKPOT

Just like the lottery, where you can have multiple combinations on the same Spot for how many games you want. You get to choose what Spot and how many chances. The system will generate the numbers for you.

WAY BET

Allows you to play more than one Spot and/or jackpot on a single ticket and game, similar to the Superplay, but where you can choose your numbers.

Ways are created by combining one or more groups of numbers. Each way represents a separate bet on the ticket.

You may only select ways totalling 1-40 numbers. It is not possible to have the same number in more than one group.

Choose the numbers you would like and mark each group with A, B, C, D etc. You may only select ways totaling 1 to 40 Spots.

You can mark your own numbers into groups to form all possible Spot combinations from your groups if you play ALL WAYS, or you can choose your OWN WAYS for your choice of which Spots to play.

It is the amount of numbers correctly matched in each way selected that determine your prize, not the total numbers you match.

A Mark numbers and the group each number is going into

B Select if you want 'All Ways' every possible combination or which Spot combinations you want

C Mark how much money to play on each way/combination

D Mark the amount of consecutive games to be played

POINTS TO REMEMBER

Actual numbers drawn on the game draw selection device shall be the official numbers drawn.

NT Keno winnings are paid out on the printed receipt ticket only and can be claimed through any NT Keno terminal up to 365 days after the bet has been placed.

It is the customer's responsibility to check their ticket. Please check your NT Keno ticket carefully, be sure it is correctly marked. Any corrections must be made before the close of the current game.

NT Keno results are not official until all numbers are drawn and confirmed.

Exposing the NT Keno ticket receipt to excessive heat may cause discoloration resulting in the entry becoming invalid.

On Spot games the minimum bet is \$1 and maximum bet is \$9,999, Heads or Tails maximum bet is \$500 per ticket. No cent bets are allowed.

NT Keno has a 1,000 game cycle, with the maximum games on one ticket being 1,000.

If there is more than one winner on a Jackpot, the Jackpot will be shared and abated proportionately.

This brochure is only intended to be an abbreviated guide to certain aspects of NT Keno in the Northern Territory. All games of the NT Keno are subject to the 'Approved Rules of Keno', which may be amended from time to time without notification. A copy of the 'Approved Rules of Keno' is available for viewing upon request from any NT Keno venue in the Northern Territory.

MAXIMUM AGGREGATE PAYOUT:

The payout limit per NT Keno game is \$200,000 (not including Jackpot pools or prizes won of \$200 or less). Therefore, if the total value of prizes in any one game exceeds \$200,000, the payouts to all major prize winners exceeding \$200 are pro-rated proportionally to their win.

Pro-rating applies to fixed-odds prizes over \$200 (not including wins of \$200 or less).

Prizes that would be pro-rated below \$200 would be scaled to a minimum of \$200.

Each way of a Combination (Ways) bets are assessed independently.

The non-fixed odds components of Jackpot wins are not subject to pro-rating (but are subject to sharing if a jackpot was won by more than one person on a game).

For instance if there are three major wins on one game of \$200,000, \$140,000 and \$60,000 the payouts will abate to \$100,000, \$70,000 and \$30,000 respectively, resulting in a total payment of \$200,000 for that game, not including prizes less \$200 that were won on that game.
